FUNCTION:

The Bicycle Advisory Committee provides a communication linkage between the City and County Commissions and the community on bicycling related issues. The Committee works to improve bicycle safety and awareness through education of motorists and non-motorists; review, update, and oversee the distribution of the City's Biking Map; seek information from multiple sources on current trends, programs, and facilities outside the local area; and promote bicycle awareness by coordinating activities with the City, County, the school district, universities, and the local bicycle clubs.
