March 10, 2009

Dear Interested Party,

The City of Lawrence Board of Electrical Appeals is currently working towards recommending to the Lawrence City Commission the adoption of the 2008 National Electrical Code and amendments. The next Board meeting will be held on May 6, 2009 at 6:00 pm in the City Commission Room. The Commission Room is located on the first floor of City Hall at 6th East 6th Street in Lawrence.

This meeting has been designated by the Board to receive public input from Electrical Contractors, Electricians and all interested parties. Public input allows the Board to consider items that may not have been taken into consideration during their review of the 2008 National Electrical Code.

The Board has developed a draft document that reflects the updated amendments as well as changes and deletions made to previous amendments. Copies of the draft document are available at the Development Services office during regular business hours. Our office is located in the Riverfront Plaza, Level One, Suite 110. The draft document will also be made available on the Department website www.lawrenceks.org/pds

The Board of Electrical Appeals will consider your input while finalizing the draft document. Once the draft document is completed further comment would be considered by the City Commission. If you have any further questions please feel free to call 785-832-3105.

Sincerely,

Phil Burke
Electrical Inspector
City of Lawrence
