

TRANSPORTATION 2030 COMMITTEE (T2030)
Discussion Items

NOTE TIME CHANGE!!!

Tuesday, September 19, 2006

11:30-1:00 PM

City Manager's Conference Room, 4th Floor, City Hall

- **Roadway Project Lists**
Begin discussion of potential projects and alignments to consider for scenario building in the modeling for T-2030. Attached are the initial project list developed during the T-2025 process and the list of adopted projects. The committee should begin discussion of potential projects to be considered for testing during the T-2030 modeling process.

- **Future Land Use Map**
Continue discussion of updating the 2025 Future Land Use Map to a 2030 scenario. Staff has developed a composite future land use map for discussion. Using the T2025 future land use map as a base, staff concepts for several areas and draft future land use maps from several area plans were added.

- **Transportation 2030 draft chapters**
Staff is revising and updating T-2025 chapters for inclusion in the T-2030 plan. Attached for committee review are Chapter 1 – Context & Issues, Chapter 4 – Goals & Objectives, and Chapter 8 – Bicycle System Plan.
